FR Depuis 25 ans, John Fearon et James Bassant, nos fondateurs, partagent une passion pour le design britannique dans le domaine des luminaires et une vision consistant à produire des produits qui se démarquent par leur qualité. Les connaissances acquises en la matière au fil du temps influencent notre gamme complète de luminaires destinés aux applications hôtelières, résidentielles et commerciales. Forts de l'attention méticuleuse que nous portons aux détails, nous trouvons un équilibre entre hautes performances et engagement en faveur d'un design durable et intemporel.

CONCEPTION BRITANNIQUE

Nos luminaires prennent vie au Royaume-Uni, sous forme de simples esquisses dans nos carnets de croquis. Des designs à l'épreuve du temps, à l'esthétique épurée : la simplicité de forme de nos produits garantit qu'ils conservent une qualité pérenne.

LA DIFFÉRENCE DANS LE DÉTAIL

Nous pensons que chaque produit devrait être conçu pour durer. Nous ne cédon's à aucun compromis. Nous optons toujours pour les meilleurs procédés possibles, intimement convaincus que si l'ingénierie est de qualité, le produit final sera, lui aussi, réussi.

AMÉLIORER LE FUTUR

Dans le futur que nous envisageons, les activités, les hommes et la planète se conjuguent de façon plus harmonieuse. Cette entreprise est rarement simple. Et pourtant, de modestes actions qui révolutionnent la façon dont nous faisons les choses aujourd'hui permettront, à terme, d'opérer, demain, un changement réel et significatif.

UNE COMMUNAUTÉ MONDIALE

Ce qui a commencé avec 1 client et 6 produits est devenu aujourd'hui une marque de renommée internationale. C'est grâce à la famille Astro, à l'échelle mondiale, et à nos partenaires de fabrication dédiés que nous continuons de donner vie à nos concepts.

DE Seit 25 Jahren teilen unsere Gründer John Fearon und James Bassant eine Leidenschaft für britisches Beleuchtungsdesign und, Produkte mit unverwechselbarer Qualität zu erschaffen. Die in dieser Zeit gewonnenen Erkenntnisse fließen in unser umfassendes Beleuchtungssortiment für das Hotel- und Gastgewerbe, Wohnimmobilien und Bürogebäude ein. Durch unsere akribische Aufmerksamkeit für Detail schaffen wir ein Gleichgewicht zwischen höchster Leistung und einem nachhaltigen, zeitlosen Design.

BRITISCHES DESIGN

Das Leben unserer Leuchten beginnt in Großbritannien als einfache Zeichnungen in unseren Skizzenbüchern. Bei unseren zukunftsicheren Designs mit unaufdringlicher Ästhetik ist es die Einfachheit der Form, die sicherstellt, dass unsere Produkte dauerhafte Qualität beibehalten.

VERSCHIEDEN IM DETAIL

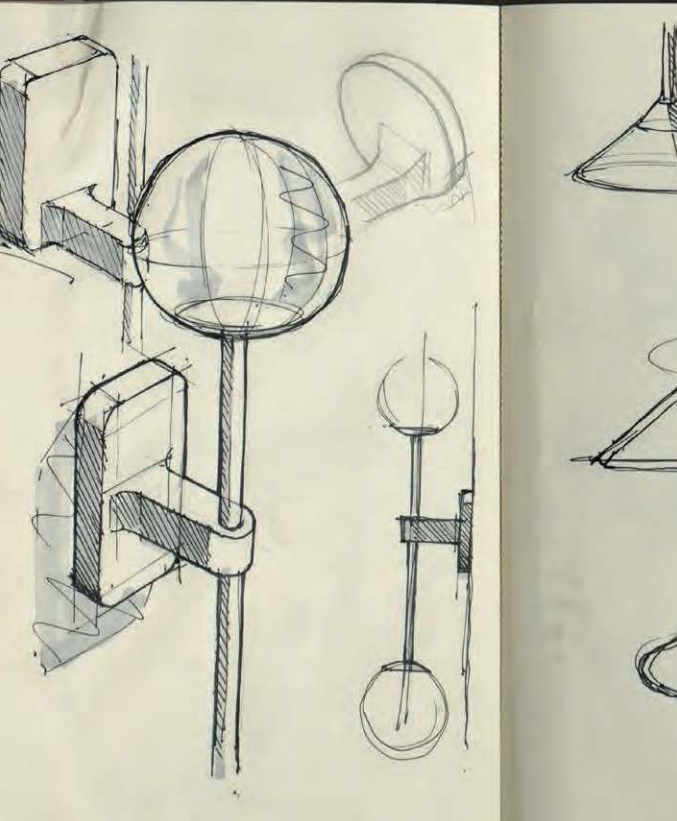

Wir glauben, dass jedes Produkt auf Langlebigkeit ausgelegt sein sollte. Wir glauben nicht an Kompromisse und wählen immer die bestmöglichen Verfahren. Wir vertrauen darauf, dass das Endprodukt großartig sein wird, wenn seine Entwicklung großartig gewesen ist.

FÜR EINE BESSERE ZUKUNFT

Unsere Vision ist eine Zukunft, in der Unternehmen, Menschen und der Planet harmonischer zusammenleben können. Es ist nicht immer leicht, aber kleine Handlungen, die die Art und Weise, wie wir heute Dinge tun, in Frage stellen, werden letztendlich morgen zu echten und bedeutungsvollen Veränderungen führen.

EINE GLOBALE GEMEINSCHAFT

Von nur einem Kunden und sechs Produkten zu Beginn hin zu einer international anerkannten Marke heute. Es ist der globalen Astro-Familie und unseren engagierten Fertigungspartnern zu verdanken, dass wir unsere Vision dauerhaft Realität werden lassen können.

OUR STORY

For 25 years, our founders John Fearon and James Bassant have shared a passion for British lighting design and a vision to create products with distinctive quality. The insight gained over this time influences our comprehensive range of lighting for hospitality, residential, and commercial applications. Underpinned by our meticulous attention to detail, we balance high-performance with a commitment to sustainable, timeless design.

DESIGNED IN BRITAIN

Our luminaires begin life in the UK as simple drawings within our sketchbooks. Future-proofed designs with a pared-down aesthetic, it's a simplicity of form that ensures our products retain an enduring quality.

DIFFERENT BY DETAIL

We believe every product should be made to last. We don't believe in compromise and always choose the best possible processes, trusting that if the engineering is great, the final product will be great too.

BETTER FOR TOMORROW

Our vision is a future where business, people, and the planet can live more harmoniously together. It's rarely simple, but small acts that challenge the way we do things today, will ultimately lead to real and meaningful change tomorrow.

A GLOBAL COMMUNITY

From one customer and six products in the beginning, to what is today an internationally recognised brand. It's thanks to the global Astro family and our dedicated manufacturing partners that we continue to bring our vision to life.

IT Da 25 anni i nostri fondatori John Fearon e James Bassant condividono la passione per la progettazione illuminotecnica inglese ed una vision per la creazione di prodotti con una qualità distintiva. Le idee raccolte nel corso di questi anni influenzano la nostra gamma completa di soluzioni di illuminazione per i settori dell'hospitality, residenziale e commerciale. Anche grazie alla nostra meticolosa attenzione per il dettaglio, combiniamo elevate prestazioni con il nostro impegno verso il design sostenibile, senza tempo.

PROGETTAZIONE BRITANNICA

I nostri apparecchi di illuminazione prendono vita nel Regno Unito, da semplici disegni sui nostri blocchi. Design a prova di futuro ed estetica essenziale, è proprio la semplicità della forma ad assicurare che i nostri prodotti conservino una qualità che dura tempo.

DIVERSI NEI DETTAGLI

Riteniamo che ogni prodotto debba essere realizzato per durare nel tempo. Non crediamo nei compromessi e scegliamo sempre i migliori processi, sicuri che se la progettazione è eccellente, lo sarà anche il prodotto finale.

UN FUTURO MIGLIORE

La nostra vision è quella di un futuro in cui le attività lavorative, le persone ed il pianeta possono convivere con maggiore armonia. È raramente semplice, ma le piccole azioni che possono sfidare il modo con cui agiamo oggi comporranno un cambiamento reale e costruttivo domani.

COMUNITÀ GLOBALE

Siamo partiti con un solo cliente e sei prodotti per arrivare oggi ad un marchio conosciuto in tutto il mondo. È grazie alla famiglia globale di Astro e ai nostri speciali partner produttori che possiamo continuare a dare vita alla nostra vision.

FR ZÉRO ÉMISSION NETTE

Nous nous engageons à aller plus loin que la neutralité carbone en faisant tout ce qui est en notre pouvoir pour réduire les émissions et les amener au plus proche de zéro et ce, dans l'ensemble de notre chaîne de valeur.

CIRCULARITÉ ASTRO

Nous opérons une refonte de notre approche en termes de conception et d'ingénierie en vue d'allonger la durée de vie de nos produits. Pour ce faire, nous adoptons des boucles circulaires comme la réutilisation, la réparation et le recyclage.

LA LUMIÈRE À LA PORTÉE DE TOUS

Près d'un milliard de personnes vivent sans électricité. Elles ont donc recours à des sources de lumière dangereuses et toxiques quand il fait sombre ou nuit, comme des bougies et des lampes à kérosène. Nous pensons que tout un chacun devrait avoir accès à la lumière, peu importe qui vous êtes ou où vous vous trouvez. Nous travaillons actuellement sur un certain nombre d'initiatives visant à élargir la prise de conscience quant à cette crise énergétique à l'échelle mondiale et à aider davantage de personnes à accéder à la lumière via l'utilisation de lampes solaires portatives.

DE NETTO NULL

Wir haben uns verpflichtet, über Kohlenstoffneutralität noch hinauszugehen, indem wir alles tun, um die Emissionen in unserer gesamten Wertschöpfungskette bis auf fast null zu reduzieren.

ASTRO-KREISLAUF

Wir ändern unsere Herangehensweise an Design und Entwicklung, um die Lebensdauer unserer Produkte zu verlängern, indem wir Kreisläufe wie Wiederverwendung, Reparatur und Recycling einführen.

LICHT FÜR ALLE

Fast eine Milliarde Menschen leben ohne Zugang zu Elektrizität und sind daher bei Dunkelheit auf gefährliche und giftige Lichtquellen wie Kerzen und Kerosinlampen angewiesen. Wir sind der Meinung, dass alle Menschen Zugang zu Licht haben sollten, unabhängig davon, wer sie sind oder wo sie leben. Wir arbeiten an einer Reihe von Initiativen, um das Bewusstsein für diese globale Energiekrise zu schärfen und mehr Menschen durch den Einsatz von tragbaren Solarlampen Zugang zu Licht zu verschaffen.

IT NET ZERO

Siamo impegnati ad andare ben oltre la neutralità carbonica, facendo tutto il possibile per ridurre le emissioni, ottenendo quasi un azzeramento in tutta la catena del valore.

ASTRO CIRCOLARE

Trasformiamo la nostra strategia ingegneristica e di progettazione al fine di estendere la durata dei nostri prodotti, adottando strategie di circolarità come riutilizzo, riparazione e riciclaggio.

LUCE PER TUTTI

Circa un miliardo di persone vive senza accesso all'elettricità e si avvale di sorgenti luminose pericolose e tossiche quando fa buio, come candele e lampade al cherosene. Riteniamo che tutti dovremmo avere accesso alla luce, indipendentemente da chi siamo e da dove veniamo. Lavoriamo ad una serie di iniziative per diffondere la consapevolezza di questa crisi energetica globale e per aiutare più persone ad avere accesso alla luce utilizzando lampade solari portatili.

OUR 2030 COMMITMENTS

NET ZERO

We are committed to going further than carbon neutrality by doing all we can to reduce emissions to as close to zero as possible across our entire value chain.

ASTRO CIRCULAR

We are transforming our approach to design and engineering to lengthen the lifetime of our products, adopting circular loops such as reuse, repair, and recycle.

LIGHT FOR ALL

Nearly one billion people live without access to electricity. Many are forced to rely on dangerous and toxic light sources when it gets dark such as candles and kerosene lamps. We believe everyone should have access to light no matter who you are or where you live. We're working on several initiatives to spread awareness of this global energy crisis and help more people get access to light through the use of portable solar lamps.

FR DURABILITÉ EN MATIÈRE DE DESIGN

Nombreuses sont les idées quant à ce qui confère de la durabilité à un luminaire. Toutefois, nous sommes convaincus que cela relève de l'attention portée à l'ensemble du cycle de vie d'un luminaire en élaborant un design et en faisant des choix responsables en termes d'ingénierie et ce, à toutes les étapes : des toutes premières esquisses au stade de la conception jusqu'à la fin de vie des luminaires.

Notre ensemble de lignes directrices témoigne de notre façon de penser.

- Les produits auront une longue durée de vie en termes de design.
- Nous éviterons de recourir à des matériaux et des procédés de fabrication non durables pour nos produits.
- Les produits seront efficaces.
- Les produits pourront être réparés et tous les consommables pourront être remplacés.
- Les produits permettront la réutilisation, le recyclage et l'élimination responsable en fin de vie.

Nous façonnons notre aventure quotidienne en nous engageant à proposer des modèles durables et responsables.

Pour obtenir de plus amples informations quant à notre philosophie en termes de durabilité, rendez-vous sur astrolighting.com/sustainability.

DE NACHHALTIGKEIT IM DESIGN

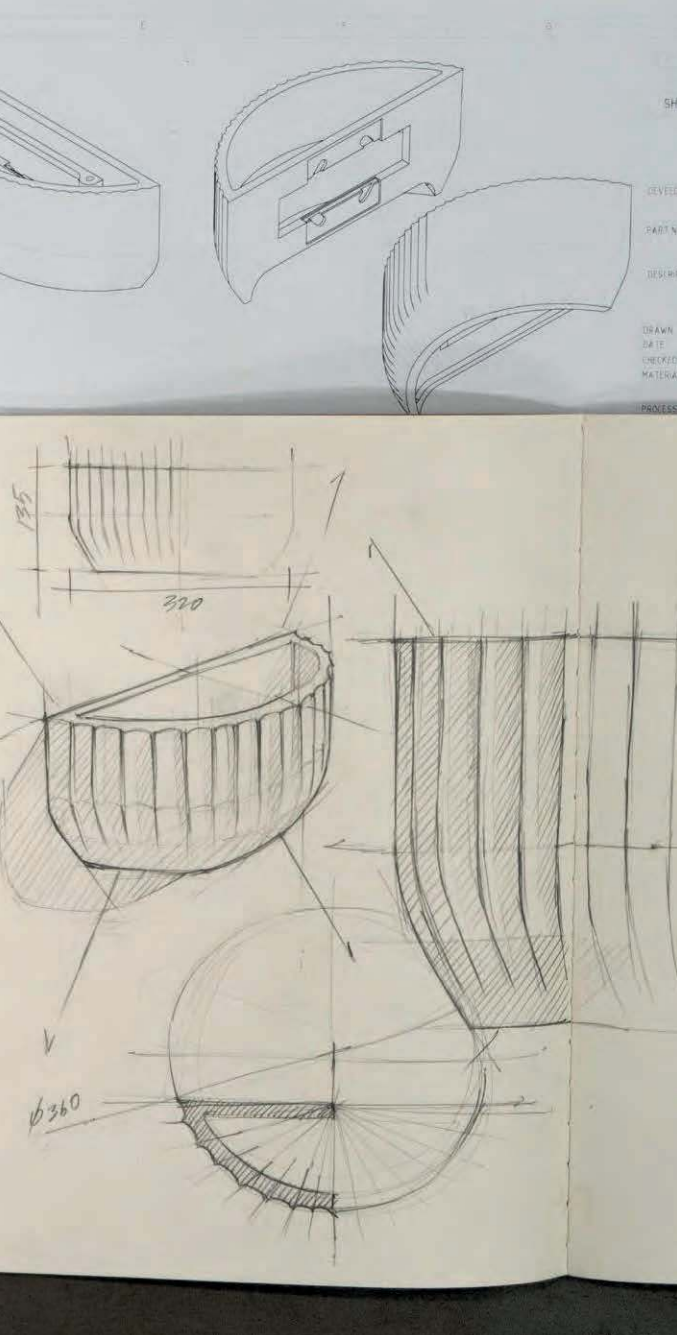

Es gibt viele Ideen hinsichtlich dessen, was nachhaltige Beleuchtung ausmacht, aber wir glauben, dass es darum geht, den gesamten Lebenszyklus einer Leuchte zu berücksichtigen, indem wir in jeder Phase verantwortungsvolle Design- und Konstruktionsentscheidungen treffen – von den ersten Konzeptskizzen bis zum Ende der Lebensdauer der Leuchte.

Wir demonstrieren diese Denkweise durch unsere Leitprinzipien.

- Die Produkte werden eine lange Lebensdauer haben.
- Bei den Produkten werden nicht nachhaltige Materialien und Herstellungsprozesse vermieden.
- Die Produkte werden effizient sein.
- Die Produkte können repariert werden und alle Verbrauchsmaterialien können ausgetauscht werden.
- Die Produkte werden für einfache Wiederverwendung, einfaches Recycling und verantwortungsvolle Entsorgung am Ende ihrer Lebensdauer konzipiert.

Unsere Verpflichtung, nachhaltiges und bewusstes Design zu entwickeln, prägt unseren weiteren Weg.

Weitere Informationen zu unserem Nachhaltigkeitsethos finden Sie unter astrolighting.com/sustainability.

SUSTAINABILITY IN DESIGN

There are many ideas around what makes lighting sustainable, but we believe it is about being mindful of the whole life cycle, making responsible design and engineering choices at every stage—from the very first concept sketches, through to the end of the luminaires' life.

We demonstrate this way of thinking through our set of guiding principles

- Products will have a long design life.
- Products will avoid unsustainable materials and manufacturing processes.
- Products will be efficient.
- Products will be repairable, and any consumables will be replaceable.
- Products will facilitate reuse, recycling and responsible disposal at their end of life.

Shaping our ongoing journey, we are committed to delivering sustainable and conscious design.

For more information on our sustainability ethos, please visit astrolighting.com/sustainability.

IT SOSTENIBILITÀ NEL DESIGN

Le idee riguardo a ciò che rende sostenibile l'illuminazione sono tante, ma noi siamo del parere che molto dipenda dall'attenzione accordata all'intero ciclo di vita di un prodotto. Tale attenzione esige scelte responsabili in ogni fase di progettazione e realizzazione, dallo schizzo iniziale al termine della vita utile del prodotto illuminotecnico.

Dimostriamo questo modo di pensare attraverso una serie di principi guida.

- I prodotti devono essere progettati per durare a lungo
- I prodotti non devono essere realizzati con materiali e processi produttivi non sostenibili
- I prodotti devono garantire efficienza.
- I prodotti devono essere riparabili e i materiali di consumo sostituibili.
- I prodotti devono facilitare il riutilizzo, il riciclaggio e lo smaltimento responsabile al termine della vita utile.

In linea con il nostro percorso consolidato, siamo impegnati a fornire soluzioni di design sostenibili e consapevoli.

LAMPS

To emulate the dimming of filament lamps Warm Dim lamps emit warmer light as they are dimmed. The stated colour temperature shows the values at maximum and minimum dimming levels.

Les ampoules Warm Dim émettent une lumière plus chaude quand cette lumière est modulée pour reproduire la lumière modulée des ampoules à filament. La température de couleur mentionnée indique les valeurs aux niveaux maximum et minimum de modulation

Um das Dimmen von Glühlampen zu nachzuahmen, geben Warm-Dim-Lampen wärmeres Licht ab, wenn sie gedimmt werden. Die angegebene Farbtemperatur zeigt die Werte bei maximaler und minimaler Dimmstufe

Per eguagliare la regolazione dell'intensità luminosa delle lampadine a filamento, le lampadine Warm Dim emettono una luce più calda quando sono dimmerate. La temperatura di colore indicata mostra valori a livelli di regolazione di intensità luminosa massima e minima.
