LIGHTING

“There’s no beauty without great lighting. Beauty is never loud. It hides in details, in shape, in moments, in light. Great lighting allows us to see what was always there and to transform it into something beautiful.”

FROM BELGIUM WITH LOVE

In België hangt niet alleen de geur van verse wafels en chocolade in de lucht – ook de liefde voor goed design. Hier ontmoeten creatieve geesten een rijke designtraditie, waar vakmanschap en moderne esthetiek samenkomen – voor licht dat verhalen vertelt en ruimtes laat stralen.

En Belgique, ce n'est pas seulement le parfum des gaufres et du chocolat frais qui flotte dans l'air – c'est aussi l'amour du bon design. Ici, des esprits créatifs rencontrent une longue tradition du design, mêlant artisanat et esthétique moderne – pour une lumière qui fait rayonner les espaces.

13&9 DESIGN

13&9 Design – het creatieve duo van Anastasija en Martin Lesjak – staat sinds 2013 voor visionair Oostenrijks design. Voor Wever & Ducré ontwierpen zij iconische creaties zoals MIRRO, DRO en SHEDDA fractal. Hun stijl: fractale patronen, modulaire akoestiek – lichtsystemen en sculpturale vormen die het welzijn van mensen en sfeervolle ruimtes centraal stellen.

13&9 Design – le duo créatif formé par Anastasija et Martin Lesjak – incarne depuis 2013 un design visionnaire venu d'Autriche. Pour Wever & Ducré, ils ont créé des pièces phares comme MIRRO, DRO et SHEDDA fractal. Leur style : des motifs fractals, une acoustique modulaire – des systèmes d'éclairage et des formes sculpturales qui placent le bien-être des personnes et les espaces atmosphériques au centre.

DEEP CONNECTIONS

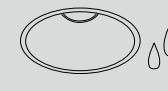

DEEP en DEEPER zorgen voor klassiek downlight in gangen, woonkamers of badkamers – optioneel in IP44 of IP65 voor spat- en straalwaterbescherming. De familie wordt nu aangevuld met DEEP IQ uit 3D-geprint materiaal en de vrijwel onzichtbare trimless ADJUST-varianten.

DEEP et DEEPER offrent un éclairage directionnel classique pour les couloirs, salons ou salles de bain – en option en IP44 ou IP65 pour une protection contre les éclaboussures et les jets d'eau. La gamme s'enrichit désormais de DEEP IQ en matériau imprimé en 3D, ainsi que des variantes ADJUST sans cadre presque invisibles.

THEY'RE FUN TO BATHE WITH

IP44-armaturen zijn perfect beschermd tegen spatwater, IP65 zelfs tegen waterstralen – ideaal voor badkamers, douches of spa's. De modellen met een geringe inbouwdiepte zijn ideaal bij weinig ruimte en lage plafonds. Beide beschermingsklassen zijn bovendien in vele uitvoeringen verkrijgbaar, niet alleen als spots.

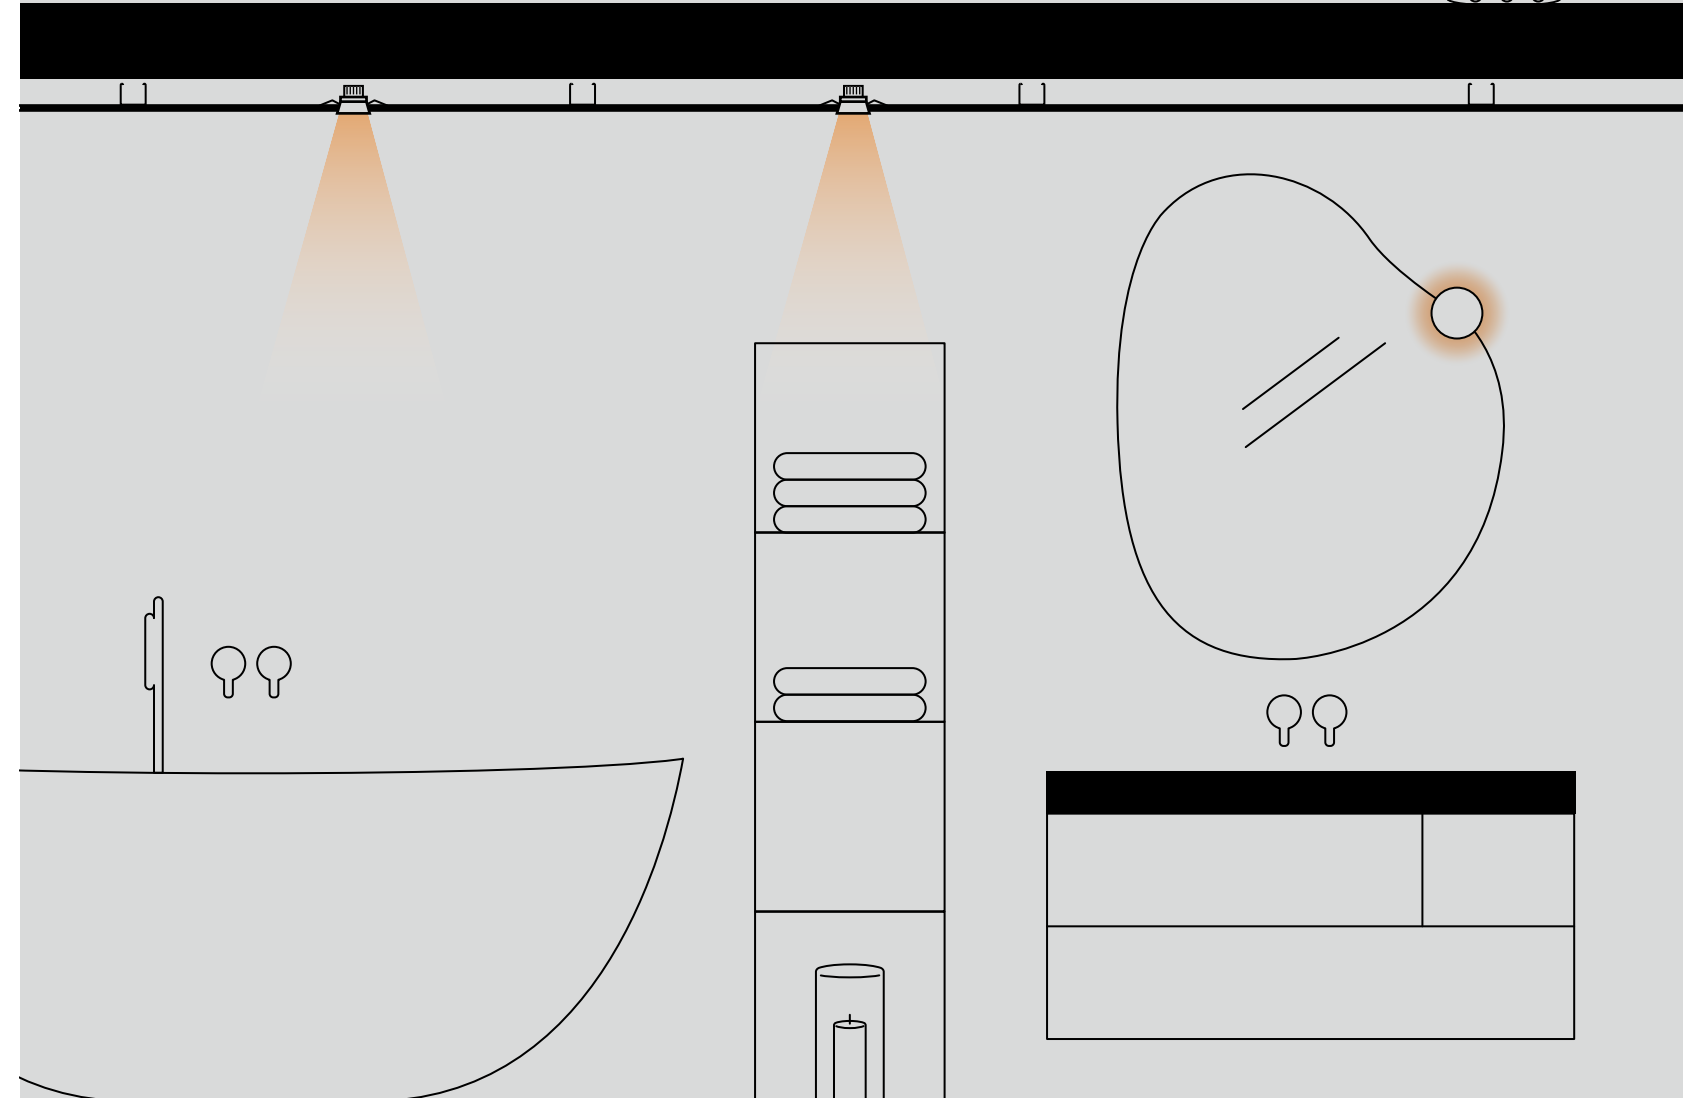

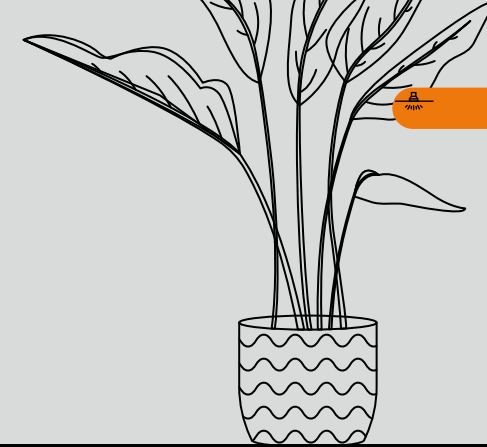

Les luminaires IP44 sont parfaitement protégés contre les éclaboussures, les IP65 même contre les jets d'eau – idéals pour salles de bain, douches ou espaces bien-être. Les modèles plats conviennent aux petits espaces et plafonds bas. Les deux protections existent d'ailleurs en de nombreux formats, pas seulement en spots.

Railsystemen zijn eenvoudiger dan ze lijken: 1-fase rails sturen alle armaturen tegelijk aan, terwijl 3-fase rails afzonderlijke bediening van spots en pendels mogelijk maken. Het 48-volt systeem biedt maximale flexibiliteit voor diverse armaturen en is eenvoudig via smartphone te bedienen.

Les systèmes sur rail sont plus simples qu'ils n'en ont l'air : les rails 1 phase contrôlent tous les luminaires ensemble, tandis que les rails 3 phases permettent de gérer séparément spots, modules et suspensions. Le système 48 volts offre une flexibilité maximale et se commande facilement via smartphone.

STREX

48V system

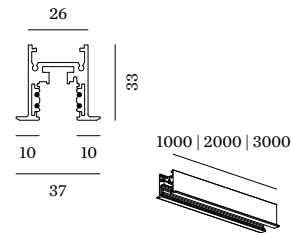

weverducre.com/strex-configurator

Discreetly hidden in the ceiling, as a striking surface-mounted option, or floating freely in the room – with three mounting types you'll find the right solution for any space. Tip: sketch your project and note where the track should run and which zones you want to highlight for a clearer overview.

STREX

48V system

A driver regulates the current flowing through your LED lights, preventing overheating and unwanted flickering. Which is best suited to your STREX system depends on the chosen installation. The most elegant solution is an in-track driver, but many other variants are also available.

GOOD TO KNOW

Electrical components of champagne or bronze connectors and drivers will be black.

HOW TO CONTROL MY STREX SYSTEM

Wat is er zo geweldig aan het STREX-systeem? Je hebt eindeloos veel mogelijkheden. Het schakelen of dimmen van je verlichting is eenvoudig met DALI. Wil je liever geen bedraad systeem installeren, kies dan voor een flexibelere oplossing – alles wat je nodig hebt is een Casambi-besturingsmodule en compatibele DALI-inzetstukken.

Qu'est-ce qui rend le système STREX si intéressant ? Il offre d'innombrables possibilités. Allumer ou varier l'intensité de vos luminaires est très simple avec DALI. Et si vous ne souhaitez pas installer un système câblé, optez pour une configuration plus flexible – il vous suffit d'un module de commande Casambi et d'inserts DALI compatibles.

OH, HOW ROMANTIC

Wie in België is geweest, kent de romantische landhuizen met houten luiken waarin je zo zou willen wonen. Hun speelse historische stijl zorgt voor een warme, uitnodigende sfeer – van handgemaakte meubels tot de traditionele lampen die nu deel uitmaken van de nieuwe CLASSIC COLLECTION

Qui a visité la Belgique connaît ces maisons de campagne romantiques aux volets en bois, dans lesquelles on voudrait aussitôt s'installer. Leur style historique et ludique leur confère une atmosphère chaleureuse – des meubles faits main aux luminaires traditionnels de la nouvelle CLASSIC COLLECTION.

Two, three, four, or even more, the choice is yours! The number of lights and the sum of their individual wattages is the first thing you need to know to get started with your Plug & Play Connector System.

GOOD TO KNOW

24V Plug & Play Connector System recommends adding 2 or more luminaires to the driver.

2

DEFINE THE
DISTANCE
BETWEEN
DRIVER AND
LUMINAIRE

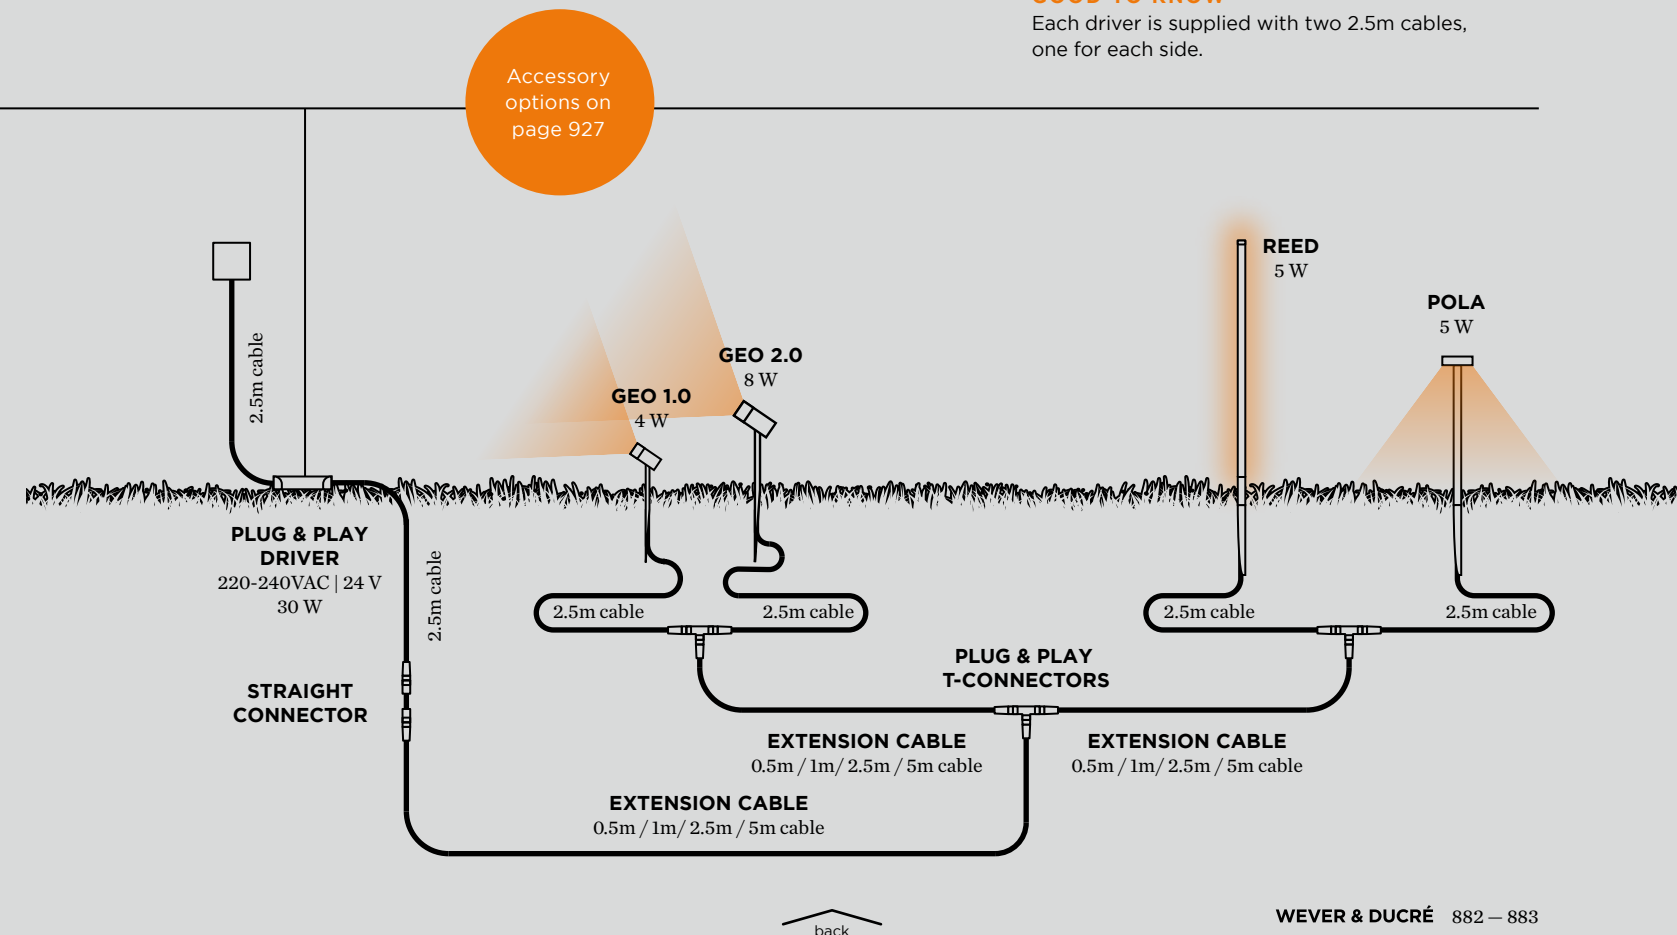

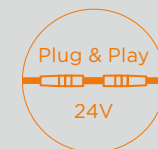

Adjacent or far away. The distance between the driver and the first light is very important as it determines the further options of your 24V Plug & Play Connector System lighting solution. You can find detailed information about your options at weverducre.com/24V-cable-length

GOOD TO KNOW

Each driver is supplied with two 2.5m cables, one for each side.
